

LAB 01

Tasks

- ☐ Use any one of the tools (Visual Studio/Adobe Dreamweaver)
- ☐ Use HTML, CSS, JavaScript
- ☐ Must be attractive, colorful, have photos
- ☐ Take screenshots of all steps and details of steps you performed in lab.

```

```

window.addEventListener("scroll", revealOnScroll);

revealOnScroll();

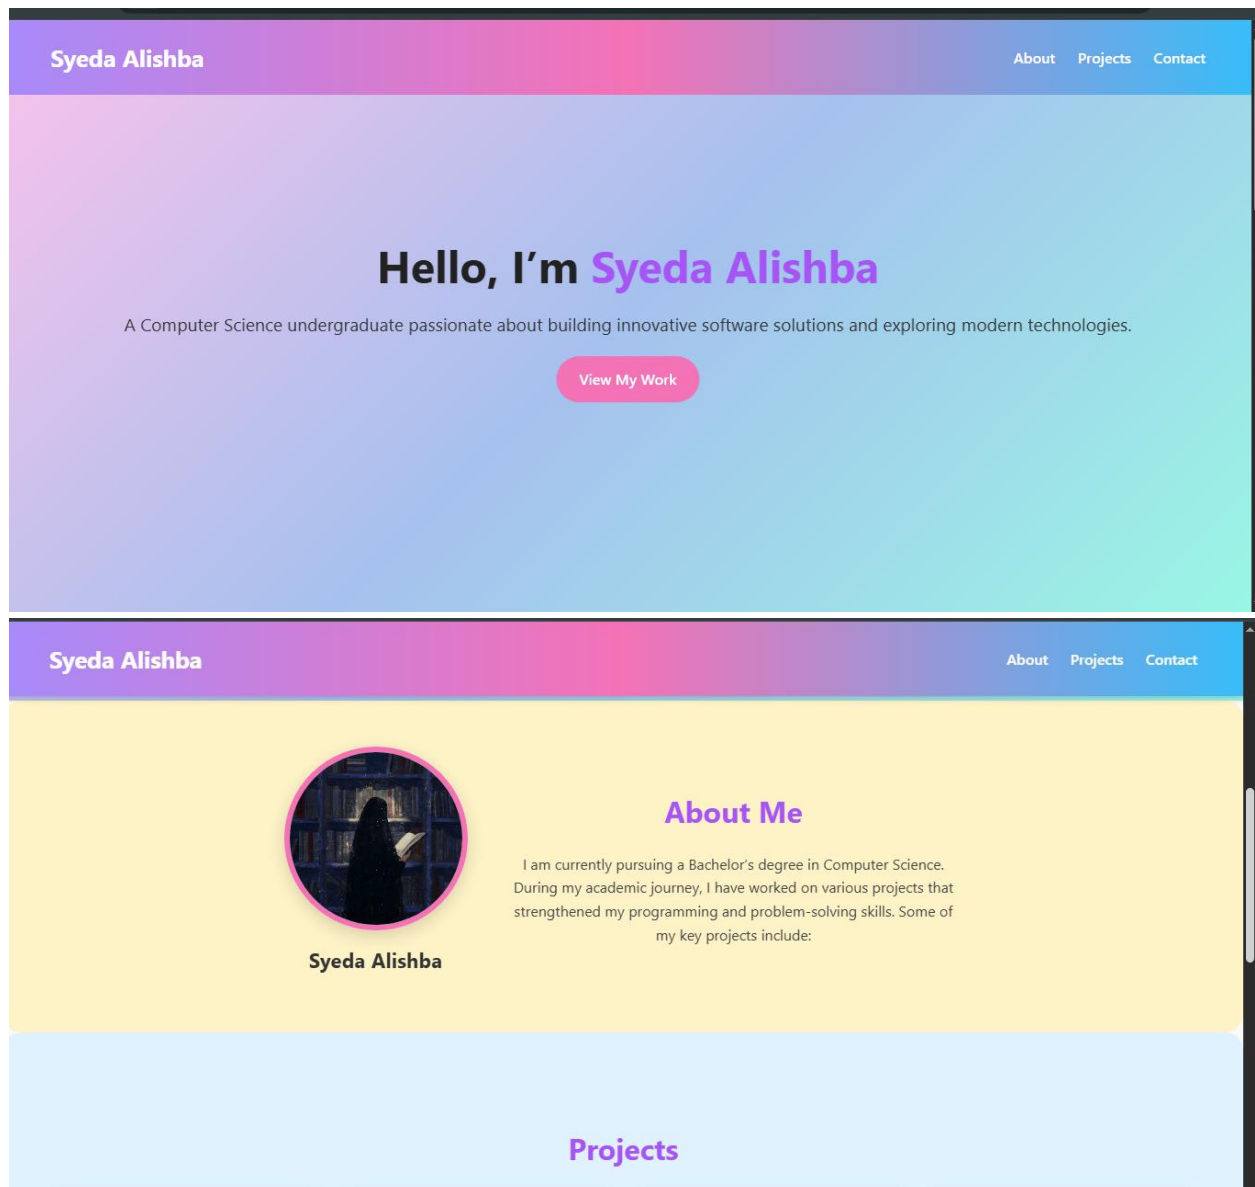

</script>

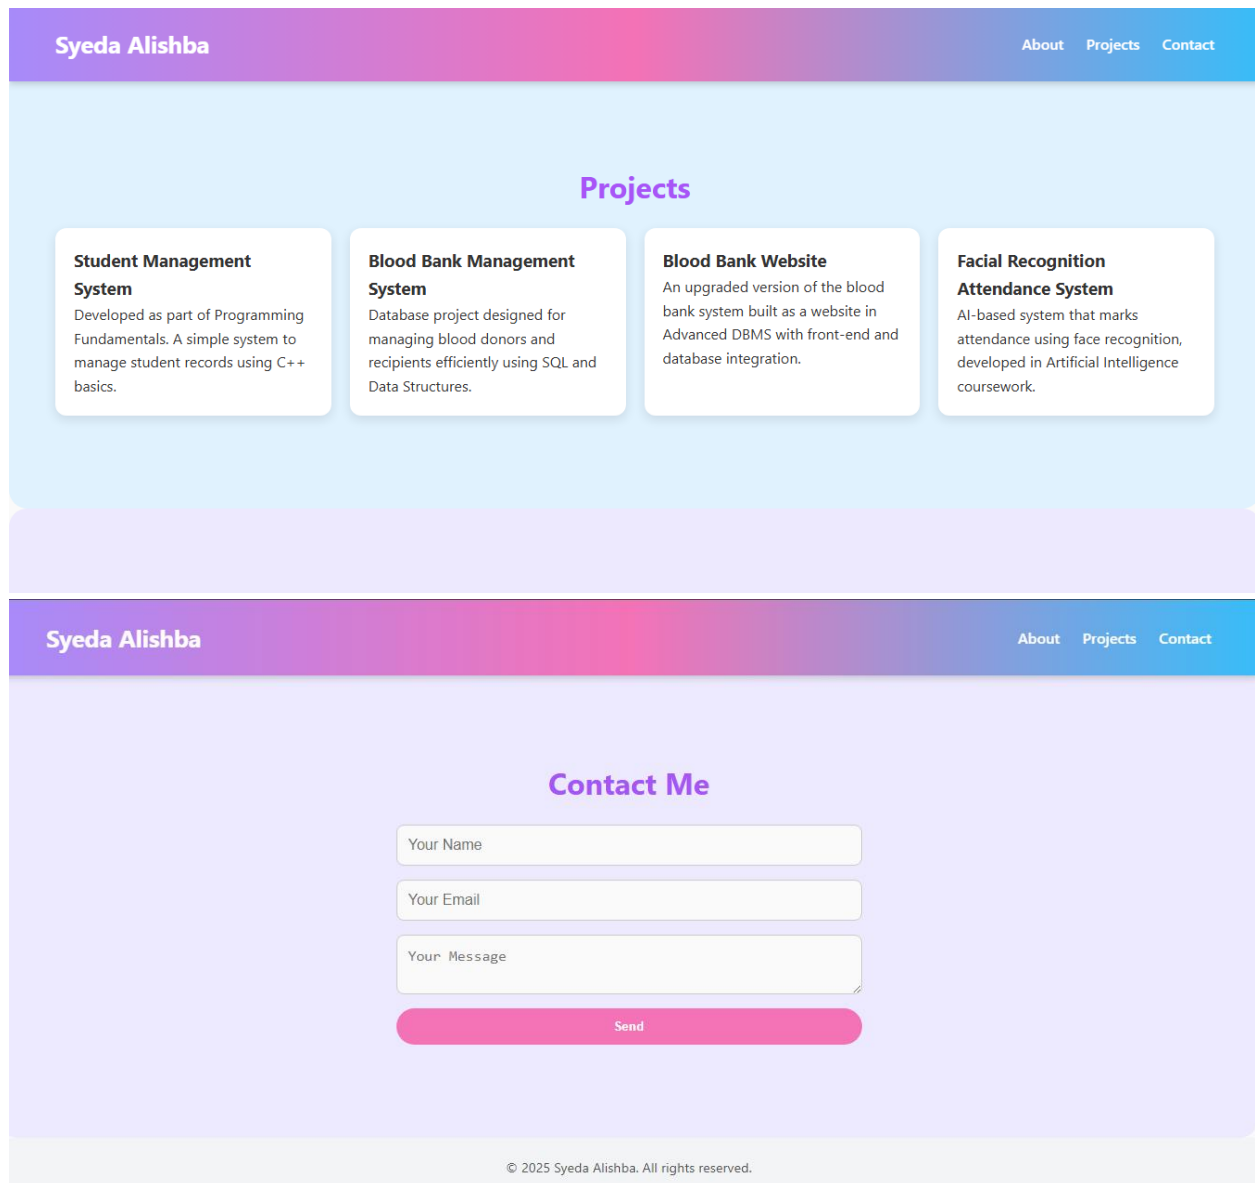

</body>

</html>

```

OUTPUT:

DOCUMENTATION:

Objective

The creation of a portfolio website that displays the abilities, completed projects, and contact details is the aim of this project. The website's goals are to:

- Professionally display academic and personal data.
- Use contemporary layout and animations to draw attention to projects.
- Offer a user-friendly, engaging interface.

- Use HTML, CSS, and JavaScript to be visually pleasing and responsive.

2. Overview

This website is used as a digital portfolio.

The following are its primary sections:

- Navbar: Smooth scrolling links and top navigation have been fixed.
- Hero Section: Overview, including a call to action button and a brief biography.
- About Section: A synopsis of academic background and personal life.
- Projects Section: Key projects with brief summaries are displayed on cards.
- Contact Section: Message-sending form.
- Footer: Details about branding and copyright.

The combination of color gradients and animations creates a contemporary and captivating design.

3. Navbar

The navbar is used for navigation and it stays fixed at the top during scrolling.

Code Highlights:

```
.navbar {  
  display: flex;  
  justify-content: space-between;  
  align-items: center;  
  padding: 20px 50px;  
  position: fixed;  
  width: 100%;  
  background: linear-gradient(90deg, #a78bfa, #f472b6, #38bdf8);  
  color: white;  
  z-index: 1000;  
}
```

- Links change opacity on hover for interactivity.
- JavaScript adds a **shadow effect** when scrolling:

```
window.addEventListener("scroll", () => {
  const navbar = document.querySelector(".navbar");
  navbar.classList.toggle("scrolled", window.scrollY > 50);
});
```

4. Hero Section

The hero section introduces the user and provides a call-to-action button to navigate to projects.

Key Features:

- For an immersive presentation, the viewport height is full.
- The gradient background creates a vibrant, colorful impact.
- Attention-grabbing animations for buttons (slideUp, fadeIn) and headings.

```
<h2>Hello, I'm <span>Syeda Alishba</span></h2>
```

```
<p>A Computer Science undergraduate passionate about building innovative software solutions.</p>
```

```
<a href="#projects" class="btn">View My Work</a>
```

5. About Section

Provides personal and academic information alongside a **profile picture**.

Design Elements:

- Flexbox layout with profile picture on one side and text on the other.
- Profile picture styled as a circle with border and hover scale effect:

```
.about .profile-pic {
  width: 200px;
  height: 200px;
```

```
border-radius: 50%;  
border: 6px solid #f472b6;  
transition: transform 0.4s ease;  
}  
.about .profile-pic:hover { transform: scale(1.05); }
```

- Text includes brief introduction and academic background.

6. Projects Section

Highlights key projects using **cards**.

Features:

- Grid layout adapts to screen size (responsive).
- Each card has shadow, rounded corners, and hover lift effect:

```
.card {  
  background: #fff;  
  padding: 20px;  
  border-radius: 12px;  
  box-shadow: 0 4px 12px rgba(0,0,0,0.1);  
  transition: transform 0.3s, box-shadow 0.3s;  
}  
.card:hover {  
  transform: translateY(-10px);  
  box-shadow: 0 8px 20px rgba(0,0,0,0.2);  
}
```

- Projects include Student Management System, Blood Bank Management System, Blood Bank Website, and Facial Recognition Attendance System.

7. Contact Section

Contains a contact form for users to send messages.

Code Highlights:

- Form fields with focus effects for better UX:

```
.contact input:focus, .contact textarea:focus {  
  outline: none;  
  border-color: #a855f7;  
}
```

- Submit button styled with gradient button class (btn) for consistency with hero section.

8. Footer

Simple footer with copyright notice:

```
<footer>  
  
  <p>© 2025 Syeda Alishba. All rights reserved.</p>  
  
</footer>
```

- Styled with light background and centered text.

9. Animations & Interactivity

- Sections reveal on scroll with fade and slide effects:

```
const sections = document.querySelectorAll("section");  
const revealOnScroll = () => {  
  const triggerBottom = window.innerHeight * 0.85;  
  sections.forEach(sec => {  
    const boxTop = sec.getBoundingClientRect().top;  
    if (boxTop < triggerBottom) sec.classList.add("visible");
```

```
});  
};  
window.addEventListener("scroll", revealOnScroll);  
revealOnScroll();
```

- Enhances user engagement and smooth navigation experience.

10. Color Palette

- **Navbar Gradient:** pastel purple → pink → blue.
- **Hero Section Gradient:** pastel pink → lavender → teal.
- **About Section:** pastel yellow (#fef3c7).
- **Projects Section:** pastel blue (#e0f2fe).
- **Contact Section:** pastel purple (#ede9fe).
- Text is dark for readability against light backgrounds.

11. Features

- Completely responsive desktop and mobile design.
- Animations that are triggered by scrolling and scrolling smoothly.
- Projects were highlighted on interactive cards.
- A contact form including hover and focus effects.
- A pastel motif with contemporary color gradients for aesthetic appeal.
